INDEX

Academic successes; 174
Application of an instability index to regional forecasting; P. G. Rackliff, 113
Ashton, J. D.; retirement, 174
Atmospheric diffusion (F. Pasquill); *essay review* by C. H. B. Priestley, 135
Auxiliary reporting station on the summit of Mount Olympus (6403 feet) in the summer, *photographs between* 356, 357

Best, A. C.; awarded C.B.E., 240
Bibliography of agricultural meteorology; *review* by L. P. Smith, 174
Bindon, G. J.; Fog at Liverpool Airport, 162
Bondi, H.; The challenge of the atmosphere (O. G. Sutton), *review*, 340
Boyden, C. J.; Forecasting of maximum surface temperature from 1000–500-millibar thickness lines, 242
Bradbury, T. A. M.; Development of rain ahead of an upper trough, 71
Brewer, A. W.; Elements of dynamic meteorology, *review*, 140
British Council course on meteorology, 1–13 April 1962; 201
British Glaciological Society 25th Anniversary Celebrations and Symposium, Cambridge 6–7 January 1962; 109
Browning, K. A.; Cellular structure of convective storms, 341, *photographs between* 356, 357
Bull, G. A.; Languages of meteorological literature, 268

Cattermole, I. D.; Duke of Edinburgh's Award Scheme, 240
Cellular structure of convective storms; K. A. Browning, 341, *photographs between* 356, 357
Challenge of the atmosphere (O. G. Sutton); *review* by H. Bondi, 340
Chandler, T. J.; Diurnal, seasonal and annual changes in the intensity of London's heat-island, 146
Circle of State Librarians, 269
Clarke, D. H.; *retirement*, 272
Clarke, E. H.; *obituary*, 172
Clifton, H. F.; *honour*, 55
Climates of the continents, 5th edition (W. G. Kendrew); *review* by A. G. Forsdyke, 27
Climatic variation; *Meteorological Office discussion*, 170
Cloud types for observers; *official publication*, 370, 372
Coles, V. R.; Some empirical research in short-range forecasting, 89
Coles, V. R.; World Meteorological Organization, Third Session of the Commission for Synoptic Meteorology, 225
Completion of the new Meteorological Office Headquarters; 1, *photographs between* 16, 17
Construction of maps and charts used in meteorology; P. B. Sarson, 68
Contribution to the problem of day-darkness over London; P. B. Gildersleeves, 365
Course in elementary meteorology; *official publication*, 175
Crabtree, J.; Meteorological factors influencing the transport and removal of radioactive debris, *review*, 205
Crossley, A. F.; The fall of hail alongside cloud, 33
Cumulus cloud generated by a rubber plantation fire in south Malaya; P. F. McAllen, 104, *photograph between* 100, 101

Daily forecast conference at the Meteorological Office; Bracknell *photograph facing* 277
Daking, C. W. G.; Fourteenth session of the Executive Committee of the World Meteorological Organization, 337
Development of rain ahead of an upper trough; T. A. M. Bradbury, 71
Differential equations for engineers and scientists (C. G. Lambe and C. J. Tranter); *essay review* by E. Knighting, 49
Diurnal, seasonal and annual changes in the intensity of London's heat-island; T. J. Chandler, 146
Durst, C. S.; *obituary*, 55
Dwyer, L. J.; *obituary*, 207

Ebdon, R. A.; Fluctuations in stratospheric winds over Ascension Island, 261
Elements of dynamic meteorology (A. H. Gordon); *review* by A. W. Brewer, 140
Errors of the Meteorological Office radiosonde, Mark 2B (D. N. Harrison); *official publication*, 307
Estimation of frequency distributions of hourly temperatures at United Kingdom stations from monthly averages of daily maxima and minima; H. C. Shellard and P. B. Sarson, 19
Evaluation of the cyclostrophic correction to the geostrophic wind; M. H. Freeman, 255
Extreme wind speeds over the United Kingdom for periods ending 1959; H. C. Shellard, 39

Fall of hail alongside cloud; A. F. Crossley, 33
Farkas, E.; Stratospheric wind reversals over Nandi, Fiji, 66
Five-day means and extremes of maximum and minimum temperature at London and Glasgow; M. H. Freeman, 227
Fluctuations in stratospheric winds over Ascension Island; R. A. Ebdon, 261
Fog at Liverpool Airport; G. J. Bindon, 162
Forecasting of maximum surface temperature from 1000–500-millibar thickness lines; C. J. Boyden, 242
Forecasting wet spells at London; C. A. S. Lowndes, 284

Foreword (re MRC) by the Director-General of the Meteorological Office; O. G. Sutton, 309
Formation and dispersal of fog over the fens; M. H. Freeman, 350
Formation of waves on warm fronts in the vicinity of the British Isles; D. C. E. Jones, 297
Forsdyke, A. G.; The climates of the continents, 5th edition (W. G. Kendrew), *review*, 27
Fourteenth session of the Executive Committee of the World Meteorological Organization; C. W. G. Daking, 337
Frankcom, C. E. N.; "Weather Monitor" takes the place of "Weather Recorder", 107, *photographs facing* 100
Freeman, M. H.; Evaluation of the cyclostrophic correction to the geostrophic wind, 255
Freeman, M. H.; Five-day means and extremes of maximum and minimum temperature at London and Glasgow, 227
Freeman, M. H.; Formation and dispersal of fog over the fens, 350
Freeman, M. H.; North Sea stratus over the fens, 357
Fulwell Station on 24 August 1961; 111, *photograph between* 100, 101

Garnett, H.; *obituary*, 84
Gildersleeves, P. B.; A contribution to the problem of day-darkness over London, 365
Gordon, A. H.; Meteorology in Scientific Papers, 270
Gordon, A. H.; Seasonally induced meridional flux of momentum in the atmosphere, *letter*, 28
Graystone, P.; Numerical prediction of temperature, 3, *corrigenda*, 56
Groves (L. G.) Memorial Prizes and Awards; 83. *photographs between* 74, 75

Harper, W. G. and Probert-Jones, J. R.; Vertical air motion in showers as revealed by Doppler radar, 273, *photographs facing* 276
Harrison, D. N.; *retirement*, 173
Hawson, C. L.; Techniques for high-level analysis and forecasting of wind and temperature fields, *essay review*, 167
High-level layer of dust; 139, *photograph facing* 129
Hinkel, C. H.; A new precision aneroid barometer, 154, *photographs between* 154, 155
Hinkel, C. H.; Third session of the World Meteorological Organization Commission for Instruments and Methods of Observation, 198
History of the Meteorological Research Committee; F. J. Scrase, 310, *photographs facing* 310, 311, 339
Hodkinson, J.; A lightning discharge to a balloon at Cardington, 230
Hogg, W. H.; Über die Fruchtgrössenveränderung einiger Apfelsorten und ihre Abhängigkeit von atmosphärischen Umweltbedingungen (S. Stenz), *review*, 370
Hong Kong Royal Observatory's radiosonde station at King's Park, *photograph facing* 304
Howkins, G. A.; Some speculations on the 100–200 mb thickness pattern as an analysis and forecasting tool, 10

Index of driving rain; R. E. Lacy and H. C. Shellard, 177
Introduction to computational methods (K. A. Redish); *essay review* by E. Knighting, 49
Introduction to Russian science reading (A. Dressler); *essay review* by R. F. Zobel, 78

Jacobs, L.; A report on a discussion "Interaction between the atmosphere and the oceans", 209
Jet stream; *Meteorological Office discussion*, 26
Jones, D. C. E.; Formation of waves on warm fronts in the vicinity of the British Isles, 297

Kew Observatory—a new feature; 200, *photograph facing* 193
Klima der Vorzeit (M. Schwarzbach); *review* by H. H. Lamb, 53
Knighting, E.; Mathematics and meteorology, *essay review*, 49

Lacy, R. E. and Shellard, H. C.; Index of driving rain, 177
Lamb, H. H.; Das Klima der Vorzeit (M. Schwarzbach), *review*, 53
Lane, R. M.; *obituary*, 340
Languages of meteorological literature; G. A. Bull, 268
Learning to read Russian meteorological literature; *essay review* by R. F. Zobel, 78
Lee, A.; *retirement*, 371
Lightbody, G. M. G.; *obituary*, 141
Lightning discharge to a balloon at Cardington; J. Hodkinson, 230
Lockwood, J. G.; Occurence of föhn winds in the British Isles, 57
Lowndes, C. A. S.; Forecasting wet spells at London, 284
Lowndes, C. A. S.; Wet spells at London, 98
Lumb, F. E.; Maritime meteorology (G. E. Earl and N. L. Peter), *review*, 28
Lumb, F. E.; Meteorological Office colloquium, 9 May 1962, 267

Machine operators at work in the punched-card installation in the Meteorological Office, Bracknell; *photograph facing* 277
Maritime meteorology (G. E. Earl and N. L. Peter); *review* by F. E. Lumb, 28
Marshall, J. L.; *retirement*, 174

Masters, H. J.; *obituary*, 29
Mathematics and meteorology; *essay review* by E. Knighting, 49
McAllen, P. F.; Cumulus cloud generated by a rubber plantation fire in south Malaya, 104, *photograph between* 100, 101
McAllen, P. F.; Mean winds over Singapore, with special reference to the 40,000 and 50,000 foot levels, 157
McTaggart-Cowan, P. D.; *honorary degree*, 56
Mean winds over Singapore, with special reference to the 40,000 and 50,000 foot levels; P. F. McAllen, 157
Mesures en Météorologie (A. Perlat and M. Petit); *review* by F. J. Scrase, 205
Meteorological factors influencing the transport and removal of radioactive debris; *review* by J. Crabtree, 205
Meteorology in Scientific Papers; A. H. Gordon, 270
Meteorological Office awards to captains and navigators of civil aircraft; 306, *photograph facing* 304
Meteorological Office colloquium, 9 May 1962; F. E. Lumb, 267
Meteorological Office, Royal Air Force, Felixstowe, 1918–61; J. Pepper, 81, *photographs facing* 70
Meteorological satellites; *Meteorological Office discussion*, 203
Miles, M. K. and Watt, G. A.; Synoptic factors associated with relaxing thermal troughs and their prediction value, 120
Miller, R. C. and Starrett, L. G.; Thunderstorms in Great Britain, 247
Morris, R. M.; Unexpected delays in clearances behind cold fronts, 304

New accommodation for the Meteorological Office Library; R. F. Zobel, 47, *photographs between* 44, 45
New precision aneroid barometer; C. Hinkel, 154, *photographs between* 154, 155
New Zealand Meteorological Service; 272
North Sea stratus over the fens; M. H. Freeman, 357
Notes by the Chairman of the MRC, Professor P. A. Sheppard; 335
Note on severe turbulence at Renfrew (Glasgow) between 500 and 1000 feet on 26 January 1961; R. Wilson, 131
Numerical prediction of temperature; P. Graystone, 3, *corrigenda*, 56

Occurrence of föhn winds in the British Isles; J. G. Lockwood, 57
O.W.S. "Weather Reporter" in a heavy sea; *photograph facing* 166

Pedlow, R. H.; Prediction of maximum day temperatures at Nicosia, (Cyprus), 14
Pepper, J.; Meteorological Office, Royal Air Force, Felixstowe, 1918–61, 81, *photographs facing* 70
Photographs of a radiosonde balloon; *Letter* from R. S. Scorer, 140, *photographs between* 128, 129
Physical meteorology: achievements and prospects; G. D. Robinson, 319, *corrigendum*, 371, *photographs between* 324, 325 and *facing* 338
Pilsbury, R. K.; The effect of wind on droplet-laden cobwebs, 239, *photographs between* 224, 225
Powell, P.; *retirement*, 371
Prediction of maximum day temperatures at Nicosia (Cyprus); R. H. Pedlow, 14
Priestley, C. H. B.; Atmospheric diffusion (F. Pasquill), *essay review*, 135
Probert-Jones, J. R. and Harper, W. G.; Vertical air motion in showers as revealed by Doppler radar, 273, *photographs facing* 276
Publications received, 56, 84, 240, 307, 340, 370

Rackliff, P. G.; Application of an instability index to regional forecasting, 113
Research in synoptic and dynamical meteorology and in climatology, 1941 to 1962; J. S. Sawyer, 327
Research organization and facilities; R. C. Sutcliffe, 314
Report on a discussion "Interaction between the atmosphere and the oceans"; L. Jacobs, 209
Report on the first season of the Meteorological Office, Bracknell, Table Tennis Club, 141
Robinson, G. D.; Physical meteorology: achievements and prospects, 319, *corrigendum*, 371, *photographs between* 324, 325 *and facing* 338
R.A.F.V.R. awards; 371
Royal visit to the Meteorological Office Headquarters, 241, *photographs between* 256, 257

Sarson, P. B.; Construction of maps and charts used in meteorology, 68
Sarson, P. B. and Shellard, H. C.; Estimation of frequency distribution of hourly temperatures at United Kingdom stations from monthly averages of daily maxima and minima, 19
Sawyer, (Mr. J. S.), Fellow of the Royal Society; R. C. Sutcliffe, 145
Sawyer, J. S.; Research in synoptic and dynamical meteorology and in climatology, 1941 to 1962, 327
Sclare, G. C.; Duke of Edinburgh's Award Scheme, 240
Scrase, F. J.; The History of the Meteorological Research Committee, 310, *photographs facing* 310, 311, 339
Scrase, F. J.; Mesures en Météorologie (A. Perlat and M. Petit), *review*, 205
Seasonally induced meridional flux of momentum in the atmosphere; *letter* from A. H. Gordon, 28

Seminars on high-level forecasting; 171
Shannon, W.; *obituary*, 55
Shellard, H. C.; Extreme wind speeds over the United Kingdom for periods ending 1959, 39
Shellard, H. C. and Lacy, R. E.; Index of driving rain, 177
Shellard, H. C. and Sarson, P. B.; Estimation of frequency distribution of hourly temperatures at United Kingdom stations from monthly averages of daily maxima and minima, 19
Sheppard, P. A.; Notes by the Chairman of the MRC, 335
Smith, L. P.; Bibliography of agricultural meteorology, *review*, 174
Snowfall of 31 December 1961; 110, photographs *facing* 101
Some aspects of the formation of fog over higher ground; W. R. Sparks, 232
Some calculations of terms in the energy balance for monthly periods at ocean weather stations I and J in the North Atlantic (H. C. Shellard); *official publication*, 111
Some empirical research in short-range forecasting; V. R. Coles, 89
Some speculations on the 100–200 mb thickness pattern as an analysis and forecasting tool; G. A. Howkins, 10
Some statistical relationships between the temperature anomalies in neighbouring months in Europe and western Siberia (J. M. Craddock and R. Ward); *official publication*, 240
Sparks, W. R.; Some aspects of the formation of fog over higher ground, 232
Sparks, W. R.; The spread of low stratus from the North Sea across East Anglia, 361
Sports activities; 111, 207
Spread of low stratus from the North Sea across East Anglia; W. R. Sparks, 361
Starrett, L. G. and Miller, R. C.; Thunderstorms in Great Britain, 247
Stiles, W. T.; *obituary*, 29
Stratospheric wind reversals over Nandi, Fiji; E. Farkas, 66
Summit of Mount Olympus after heavy snowfall; *photographs between* 356, 357
Surface winds over Ireland on Saturday, 16 September 1961; K. Woodley, 191, *photographs between* 192, 193
Sutcliffe, R. C.; Mr. J. S. Sawyer, Fellow of the Royal Society, 145
Sutcliffe, R. C.; Research organization and facilities, 314
Sutton, O. G.; Foreward by the Director-General of the Meteorological Office, 309
Synoptic factors associated with relaxing thermal troughs and their prediction value; M. K. Miles and G. A. Watt, 120

Techniques for high-level analysis and forecasting of wind and temperature fields; *essay review* by C. L. Hawson ,167
Third session of the World Meteorological Organization Commission for Instruments and Methods of Observation; C. H. Hinkel, 198
Three-parameter numerical forecasts at Dunstable—a study of the error fields (C. E. Wallington); *official publication*, 240
Thunderstorms in Great Britain; R. C. Miller and L. G. Starrett, 247
Tropospheric heating over the North Atlantic; G. B. Tucker, 184
Tucker, G. B.; Tropospheric heating over the North Atlantic, 184
Turbulence and diffusion; *Meteorological Office discussion*, 169

Über die Fruchtgrössenveränderung einiger Apfelsorten und ihre Abhängigkeit von atmosphärischen Umweltbedingungen (*S. Stenz*); *review* by W. H. Hogg, 370
Unexpected delays in clearances behind cold fronts; R. M. Morris, 304

Variation of the difference between two earth temperatures (P. B. Sarson); *official publication*, 272
Vertical air motion in showers as revealed by Doppler radar; J. R. Probert-Jones and W. G. Harper, 273, *photographs facing*, 276
Veryard, R. G.; Weather and Food (L. P. Smith), *essay review*, 235

Wallington, C. E.; Where no birds fly (P. Wills), *review*, 84
Watt, G. A. and Miles, M. K.; Synoptic factors associated with relaxing thermal troughs and their prediction value, 120
Weather and Food (L. P. Smith); *review* by R. G. Veryard, 235
Weather Monitor takes the place of *Weather Recorder*; C. E. N. Frankcom, 107, *photographs facing* 100
Weather Reporter (in foreground) and *Weather Adviser* in the James Watt Dock at Greenock; *photograph facing* 128
Wet spells at London; C. A. S. Lowndes, 98
Where no birds fly (P. Wills); *review* by C. E. Wallington, 84
Wilson, R.; A note on severe turbulence at Renfrew (Glasgow) between 500 and 1000 feet on 26 January 1961, 131
Winch house on the fo'c'sle deck of O.W.S. *Weather Reporter*; *photograph facing* 167
Woodley, K.; Surface winds over Ireland on Saturday, 16 September 1961, 191, *photographs between* 192, 193
World Meteorological Organization, Commission for Agricultural Meteorology; 369
World Meteorological Organization, Third Session of the Commission for Synoptic Meteorology; V. R. Coles, 225

Zobel, R. F.; Learning to read Russian meteorological literature, *essay review*, 78
Zobel, R. F.; New accommodation for the Meteorological Office library, 47, *photographs between* 44, 45
